DETAILED ACTION

Examiner's Comments

1. This action is in response to a phone call with applicant's attorney wherein authorization for the below examiner's amendment was authorized (see below).

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alexander Zinchuk at 212-839-5300 on 22 June 21, 2005.

The application has been amended as follows:

In claim 1, line 7, the term "and" was deleted;

In claim 1, line 8, the final period "." was replaced with --and wherein at least one of the mounting bracket components (10, 12; 64, 72) includes interchangeable insert bits.--;

Claim 11 was cancelled.

Art Unit: 3721

Reasons For Allowance

4. The following is an examiner's statement of reasons for allowance: The prior art of record fails to anticipate or show in combination an electric hand tool wherein a mounting bracket is located between the tool's gearing component and motor component and features two mounting bracket components linked to each other by a connection; wherein the tool's gearing component is allocated to one of the mounting bracket components and the tool's motor component is allocated to the other mounting bracket component; and wherein at least one of the mounting bracket components includes interchangeable insert bits. All pending claims are now allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

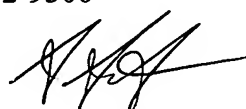

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Tanaka et al, Simpson, Kominami, Hallett, Peisert et al, Mayer et al and Furuta et al are cited to show related references.
